LOUD OR SOFT
JUST LIKE LIFE

Life is beautiful—now more than ever!
Création Baumann's JOY OF LIFE collection
combines pure fabrics with extravagant materials.
An ideal connection to bring new zest of life to
your home.

The optimistic spirit is a courageous answer to turbulent times, woven into eleven lovingly created curtain fabrics within the conflicting priorities of sensuality and expressiveness. They include textiles with a natural ambience, a special feel, classic plain colours but also innovative designs using mirror films, sequins and embroidery. In addition, the colour range plays with contrasts and inspires combinations. Muted hues stand alongside bold colours, creating space for custom highlights while the common message always remains recognisable. This clarity in diversity is underlined by premium manufacturing quality and sustainable materials.
