Aparthotel

A hotel dressed in Création Baumann textiles: from the restaurant to the room, our textiles fulfil every wish.

Starting Point

Textiles were required that would act as a counterpoint to the architecture, which is characterised by areas of concrete and white.

Solution

The fabrics add colour accents, convey warmth, regulate light, absorb sound and structure the rooms. In the restaurant, Ponte was used as a decorative fabric and to improve the room acoustics.

The Mystery blackout fabric is used to darken the rooms and was originally developed especially for the Aparthotel.
