

Office

UNILEVER Group Headquarters DACH "Neue Burg"

Textiles support the design and spatial effect of the diverse multi-space landscape.

Starting Point

Unilever's DACH headquarters moved from Hafencity to the centre of Hamburg.

In a co-creative process, the employees developed the design for the new building together with the planning office.

The result is a diverse multi-space landscape with very different design impressions and a variety of activity-based working scenarios. The space is divided into different areas that offer the employees new working worlds.

Solution

Room dividers made of the acoustic textile Lord were placed on all floors with a custom-made wooden frame. The fabric was processed with a pleated band, which provides for a visually appealing drape of the material. The room dividers serve as a zoning element. The fabric can be pulled open if necessary, opening up the area even more.

Deltacoustic adorns the window surfaces in the communal areas and creates a special feel-good atmosphere with its lightness.

In the meeting rooms, Gammacoustic, which is also acoustically effective, provides semi-transparent privacy without unnecessarily shielding the room.

Textiles Used

LORD III

Article-Number: 0100130

Use: Dense curtain fabric

Number of colors: 35

Material: 100% Flame retardant (Trevira CS)

Fabric width: 150 cm/59 inch/1.64 yard

Weight: 349 g/m²

Sound absorption: α_w 0.75

Abrasion resistance: 60'000 Martindale

Pilling: 4

Light fastness: 5-6

DELTACOUSTIC

Article-Number: 0101125

Use: Transparent/semi-transparent curtain fabric

Number of colors: 17

Material: 100% Flame retardant (Trevira CS)

Fabric width: 300 cm/118 inch/3.28 yard

Weight: 125 g/m²

Sound absorption: α_w 0.60

Light fastness: 6-7

GAMMACOUSTIC

Article-Number: 0100885

Use: Transparent/semi-transparent curtain fabric

Number of colors: 10

Material: 100% Polyester flame retardant

Fabric width: 300 cm/118 inch/3.28 yard

Weight: 74 g/m²

Sound absorption: α_w 0.50

Light fastness: 7
