# MIO Sportklinik – Leipzig

Functional fabrics with great colour palette give rise to a hotel character.

## Starting Point

Conversion to a clinic with the character of a hotel annexing the existing operating area. The challenge was to create a sophisticated hotel character while meeting the requirements for cleaning and hygiene.

## Solution

One of the reasons why Création Baumann was selected for the curtains was due to the large colour palette.

The transparent curtain protects against prying eyes and, thanks to the blackout material, the room can be dimmed during the day too.
