

Office

Budapester Salon – Berlin

Versatile interior design using textile solutions.

Starting point

Budapester Salon, Berlin: Two separate business premises, each on three floors, are to be connected by a spiral staircase, whereby strict monument protection requirements must be taken into account. The aim is to create an inviting showroom at the entrance to Kurfürstendamm.

Solution

The ground floor is a multifunctional space for meetings, presentations and exchanges, surrounded by SERENO curtains in various colours, which create a fascinating atmosphere in combination with lights. The upper floor offers an orderly environment for co-working, supported by Acoustic Color Fields acoustic panels and Acoustic Fiber Ceiling with CAVALLO PIU and the visual highlight VOILE TINTO, a transparent curtain fabric with full-surface digital printing, which lends the Working Cube subtle accents with its exciting colour gradient. In the basement, retreats are provided for meetings or confidential discussions, with the SINFONIAACOUSTIC acoustic curtain in combination with ALU NET installed around the conference table. The result is a room that offers sufficient space for product presentations and communicative exchange thanks to the diverse utilisation options on the various floors.

Textiles Used

SERENO COLOR II

Article-Number: 0100785

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 24

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 320 cm

Gewicht: 38 g/m²

Lichtechtheit: 5-6

VOILE TINTO

Article-Number: 0101685

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 3

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 295 cm

Gewicht: 51 g/m²

Lichtechtheit: 5

SINFONIAACOUSTIC

Article-Number: 0101755

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 12

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 300 cm

Gewicht: 105 g/m²

Schallabsorption: α_w 0.60

Lichtechtheit: 5-6

ALU NET

Article-Number: 0101330

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 7

Material: 100% Polyester flammhemmend

Stoffbreite: 290 cm

Gewicht: 116 g/m²

Lichtechtheit: 7

CAVALLO PIU

Article-Number: 0100760

Anwendung: Möbelstoff Objektbereich

Number of colors: 55

Material: 80% Schurwolle / 20% Polyamid

Stoffbreite: 155 cm

Gewicht: 350 g/m²

Schallabsorption: α_w 0.75

Scheuerfestigkeit: 50'000 Martindale

Pilling: 3

Lichtechtheit: 5-6
