Engineering office Bern

Modern and agile working: A contemporary office concept with textile solutions.

Starting Point

The engineering firm BSB + Partner in Bern needed to modernise its offices. The existing retreat zones and meeting rooms were no longer up to date and needed to be improved in terms of visual, glare and acoustic efficiency. The aim was to create a more flexible and pleasant working environment.

Solution

Objekt 13 Innenarchitektur Bern developed a new office concept that emphasises textile solutions. Retreat zones and meeting rooms are redesigned with high-quality textile curtains, UMBRIA and SPORT, to separate rooms. These curtains provide visual separation as well as glare and noise protection. In addition, the elegant, naturally soft draping SINFONIA CS curtain fabric is used to create a quiet, flexible and stylish working environment.
