# UNILEVER Group Headquarters DACH "Neue Burg"

Textiles support the design and spatial effect of the diverse multi-space landscape.

## Starting Point

Unilever's DACH headquarters moved from Hafencity to the centre of Hamburg.

In a co-creative process, the employees developed the design for the new building together with the planning office.

The result is a diverse multi-space landscape with very different design impressions and a variety of activity-based working scenarios. The space is divided into different areas that offer the employees new working worlds.

## Solution

Room dividers made of the acoustic textile Lord were placed on all floors with a custom-made wooden frame. The fabric was processed with a pleated band, which provides for a visually appealing drape of the material. The room dividers serve as a zoning element. The fabric can be pulled open if necessary, opening up the area even more.

Deltacoustic adorns the window surfaces in the communal areas and creates a special feel-good atmosphere with its lightness.

In the meeting rooms, Gammacoustic, which is also acoustically effective, provides semi-transparent privacy without unnecessarily shielding the room.

## LORD III

**Art.-No:** 0100130

**商品カテゴリ:** ドレープ

**色数:** 35

**組成:** 100% 難燃ポリエステル (Trevira cs)

**生地幅:** 150 cm

**特記事項:** 縦使い・横使い可

**重さ:** 349 g/m<sup>2</sup>

**吸音:**  $\alpha_w$  0.75

**耐摩耗性:** 60'000 マーチンデール

**ピリング:** 4

**耐光堅牢度:** 5-6

---

## DELTACOUSTIC

**Art.-No:** 0101125

**商品カテゴリ:** レース/ケースメント

**色数:** 17

**組成:** 100% 難燃ポリエステル (Trevira cs)

**生地幅:** 300 cm

**特記事項:** 縦使い・横使い可

**重さ:** 125 g/m<sup>2</sup>

**吸音:**  $\alpha_w$  0.60

**耐光堅牢度:** 6-7

---

## GAMMACOUSTIC

**Art.-No:** 0100885

**商品カテゴリ:** レース/ケースメント

**色数:** 10

**組成:** 100% 難燃ポリエステル

**生地幅:** 300 cm

**特記事項:** 縦使い・横使い可

**重さ:** 74 g/m<sup>2</sup>

**吸音:**  $\alpha_w$  0.50

**耐光堅牢度:** 7
